

**Trying  
to meet  
YOUR  
goals?**

As an educational organization with extensive expertise and experience in schools and systems, we are available to provide support for districts wanting to plan, implement or bring to completion initiatives, areas of growth and strategic priorities.

We have successfully designed and delivered a variety of district initiatives such as:

- Collaborative Response structures and processes across all schools
- Beginning teacher mentorship and cohort learning, as well as in-school coaching
- Implementation plans and in-school coaching in literacy, numeracy and behaviour
- Educational Assistant professional learning sessions and support
- District-wide development and deepening of Quality Learning Environment frameworks
- District-wide development and coordination of Early Learning Partnerships and Networks
- Inclusive services development and coordination
- School leadership development and coaching
- Support for policy, procedure and handbook development
- District-wide mission, vision and value development
- Strategic team planning and development
- Grant writing and proposal development

Leading Learners, Supporting Schools, Enriching Education

**Wanting to  
ensure success  
for organizational  
priorities?**

**IMAGINE ...**

- Proactive cultures of response in a time of shrinking resources
- Higher levels of student success
- Higher levels of collective efficacy and staff empowerment

# Collaborative Response

We understand that a single teacher alone cannot possibly meet the needs of their diverse classrooms. We've been there! We know the hard work they're doing every day for every child in every classroom. We know it's complex and you're doing the best you can!

Join the hundreds of educational organizations throughout Alberta and beyond who are seeing success through Collaborative Response, a system-wide framework that values collaborative, action-focused responses, data-informed discussions, and timely intervention to ensure all students can experience success. A carefully planned and implemented Collaborative Response will provide impact to support both children and teachers.

Evidence

Continuum of  
Supports

Jigsaw Learning can guide you every step of the way to create a plan and help maximize the collective capacity in your schools!

"Through the first year of our partnership with Jigsaw Learning, our school reported a 30% increase in the number of students achieving grade-level in their literacy achievement!"

*Chester Auger, CEO,  
Bigstone Cree Nation –  
Education Authority*

*Darren Young, Deputy Superintendent,  
Peace Wapiti School Division.*

"I would highly recommend Jigsaw Learning to any school or District looking to systematically support their staff in their goal to comprehensively impact student learning."

"We highly recommend Jigsaw Learning to support professional learning and collaborative processes. They are very professional, very experienced and truly helpful in supporting the school."

*Danielle, Principal*

### System and School Leadership

Are you a leader with conflicting priorities, increasing expectations with less support and resources? We too have had to struggle with all the expectations of leadership... yet produce results! You are not alone. We are here to guide, support and give you solid advice and resources that result in an aligned plan for success!

### Responsive Behaviour Supports

Do your classrooms or schools need help ensuring a safe and caring environment so all learners can thrive? Teachers feeling discouraged and searching for solutions? Together, we can help to develop a plan to ensure a collaborative response to behaviour, through coaching and other multi-layered supports. Let our team help your teachers to develop the skills and collective capacities to support the challenging behaviours they are facing.

### Literacy Supports

We know teachers and leaders are feeling the pressure in their classrooms and their schools to ensure high levels of literacy for all learners! We have worked with educational organizations, from the district to the school and classroom level, to develop comprehensive plans for highly-impactful literacy instruction and rich cultures of literacy. Our team of exceptional educators can help take your teachers to the next level!
